The President's Message

I wish all of you a Happy New Year and lots of orchid blooms to warm our homes during the coming winter months. Although I had to "unpack" my air-conditioner for use on a 72 degree Christmas day, my "6<sup>th</sup> sense" says we will pay for this Christmas anomaly in the coming months of January, February and March.

Speaking of March, our annual show and sale is coming up the weekend of March 11 - 13. Please keep this in mind; we can use your help beginning on March 8. More information will follow in February.

Our next Board meeting is scheduled for January 28 at the home of Barbara and Lou Buck. Committee chairs... please get you reports to me by Tuesday, Jan. 26. If there are topics that you would like to place on the agenda, please e-mail them to me.

Thank you to Barbara and Lou Buck for putting together such a scrumptious Christmas party and to all those members who contributed goodies. No one should have gone home hungry.

Get well wishes go out to John Dunning and Margaret Smith. If you know of a member who is ill, in the hospital or at home recuperating, please let me know or Janice Mazur -Sunshine 410-381-5694, janice.mazur@gmail.com

# January Guest Speaker

Arthur E. Chadwick

Art holds a BS in Electrical Engineering from North Carolina State and an MBA from James Madison University. He founded Chadwick & on Orchids Inc in 1989 with his father who had been growing orchids since 1943.

Chadwick's operates 11 greenhouses in rural Powhatan County, a retail store in Richmond, and boards over 13,000 orchids for local Virginia clients.

Art and his father have the distinction of naming Cattleya hybrids after the wives of the last four U.S. Presidents.

#### Art writes a monthly orchid advice

column for the Richmond Times Dispatch and the Winston Salem Journal. He spoke at the Western Australian Orchid Conference and the World Orchid Conference in France.

In 2005, Art Sr and Jr appeared on the Martha Stewart TV show with their book, 'The Classic Cattleyas'. The company was later featured in Southern Living Magazine and The New York Times.

## Judges Choice for the Evening

#### **The Judges Choice of the Evening** was Cycn. Chylocon X Cyc. Jumbo, exhibited by Chris

Zajac. Thank You to our judges who were, Mark Robbins, Kathi Jackson and Laura Sobelman.

Our show table had an incredible display of 132 beautiful flowering

plants. A special **THANKS** to all that make our show table such a great success!

I purchased the Cycnoches chlorochilon x Cyc. Jumbo Micky at the October 2007 NCOS show member's table-a leafless ,plump pseudobulb. It has remained happily potbound in the original 3 inch wide by 7 inch deep clear plastic pot.- mainly a mass of roots with some long fiber moss.. I grow it with one side facing a sodium halide fixture at 3,000 foot candle intensity,the other side about 4 inches away from a southwest facing window I water twice a week in active growth,once a week when leafless. It bears yellow thick flowers,6 to 8 per inflorescence,lightly scented. Two months after flowering,the broad leaves are dropped. It has a compact growth habit ,but top heavy when leaves and flowers are mature. Submitted by Chris Zajac

# David's Corner

For the January Education Corner, Aaron Webb will describe some ways that new and not-so-new members can begin to get involved in society activities.

Aaron's experience can Illustrate how getting involved can help to increase enjoyment and appreciation of orchids as well as make many new, like-minded friends.

Deberah's Corner

February 18, 2016 MOS Monthly Meeting: Member Round Table Discussion

For our February 2016 Educational Program we will have our own Member Round Table Discussion.

Topics to include pictures and ideas submitted by members on how their orchids vacationed outside, using various tools and methods to protect the orchids from hot summer sun or how they secured the plants to fencing, trees or on porches.

You can send an e-mail about any topic for general discussion or submit your photos for Show N Tell or questions.

Send to contactdade@comcast.net. Please include your name and a few words about the topic/question with your photographs or subject. Use MOS in the subject header to avoid spam deletion.

We will brighten the usually drab February with a lively exchange of ideas and tips along with our lovely orchids on the Show Table.

#### (Continued from page 1) Arthur E. Chadwick

When not growing orchids, Art enjoys outdoor recreation and raising two children.

Art Chadwick. He is bringing his father's cattleya book for sale but if anyone already has one he will sign it. Can you add anyone can bring their Chadwick book and Art will sign it? Or something to that effect

**Would you like to host a speaker?** We are asking for volunteer hosts for our educational speakers who have traveled from out of town.

Many would prefer to stay in a home rather than a hotel. It is an opportunity to share experiences and information. Benefits are exclusive conversations with the experts and first pick of any plants they are selling!

Thank You One & All

Just a little thank you for participating in the MOS holiday party and bringing in some wonderful, delicious covered dishes.

It seemed like everyone enjoyed the fellowship we shared that night and much orchid information was passed among the members.

Thanks to Aaron we have some beautiful photos of the banquet tables. If you went home hungry I don't know what else we could have done to solve that problem.

Other than a comfortable bed and bath one important requirement especially for the winter time is an easy access place for their plants overnight. If you have heated garage they can pull into and leave their plants in the vehicle would be idea. Or if you have a room that is easily accessible to bring plants in for the night would be perfect too.

If you are interested please contact me at contactdade@comcast.net. We would provide some offset to you for meal expenses but your generosity would be a nice savings on our budget for speaker's travel!

Thank you, Deborah MOS Program Chair

Clark's Corner

One of my current favorites is Blc. Booth Lee 'Venice' (Bc. Maikai x Lc. Jalapa). This modest sized charmer seems to have picked up the best of each of its four grandparents — (Brassovola nodosa x Cattleya bowringiana) x (Cattleya guttata x Laelia milleri). Spotted lip from nodosa, size and color from bowringiana, substance and long life from guttata, and deep red hues from milleri. I acquired this from Sylvie's Orchids in Florida and grow it bright and warm (for me).
